

**GoToMeeting from GoTo helps people and businesses do their best work – simply and securely – from anywhere. Today, work and life are intertwined. At GoTo, customers can focus on the things that matter most throughout the day: their projects, their professions, and their personal passions.**

## Functionality

Connectivity between Omada and GoToMeeting enables organizations to:

- Request Access Rights
- Provision and Deprovision Access
- Reconcile Accounts
- Review Access
- Perform Advanced Risk Scoring
- Classify Data
- Initiate Emergency Lockout

## The Omada Configurable Connectivity offers:

- Template-driven connectivity for ease of implementation
- Flexible data model
- Adaptable and extensible data fields and attributes
- Choice of multiple authentication methods

A configurable connectivity approach provides an efficient, reliable and fast alternative that is better suited to the dynamic, hybrid IT environment where connectivity is a continuous activity. This connector for Omada and GoToMeeting can be leveraged using Omada's configurable connectivity framework, which supports standard connectors for SCIM, REST, OData, LDAP, PowerShell, .CSV, .NET, SQL, and SOAP.
