

Workday

Workday is a leading provider of enterprise cloud applications for finance, HR, and planning. Workday delivers financial management, human capital management, and analytics applications designed for the world's largest companies, educational institutions, and government agencies.

Functionality

Connectivity between Omada and Workday enables organizations to:

- Onboard Identities
- · Change Identities
- · Offboard Identities
- Request Access Rights
- Provision and Deprovision Access
- Reconcile Accounts
- Review Access
- Perform Advanced Risk Scoring
- · Classify Data
- Initiate Emergency Lockout

The Omada Configurable Connectivity offers:

- Template-driven connectivity for ease of implementation
- Flexible data model
- Adaptable and extensible data fields and attributes
- Choice of multiple authentication methods

A configurable connectivity approach provides an efficient, reliable and fast alternative that is better suited to the dynamic, hybrid IT environment where connectivity is a continuous activity. This connector for Omada and Workday can be leveraged using Omada's configurable connectivity framework, which supports standard connectors for SCIM, REST, OData, LDAP, PowerShell, .CSV, .NET, SQL, and SOAP.
