

## mijnCaress

mijnCaress is the most complete electronic health record solutions for elderly and disabled care patients. mijnCaress is tailored to the needs of healthcare professionals and their clients. With mijnCaress, everyone involved in the care process, can access and edit information quickly via smartphone, tablet or desktop.

#### **Functionality**

Connectivity between Omada and mijnCaress enables organizations to:

- Request Access Rights
- Provision and Deprovision Access
- Reconcile Accounts
- Review Access
- Perform Advanced Risk Scoring
- Classify Data
- Initiate Emergency Lockout

# The Omada Configurable Connectivity offers:

- Template-driven connectivity for ease of implementation
- Flexible data model
- Adaptable and extensible data fields and attributes
- Choice of multiple authentication methods

A configurable connectivity approach provides an efficient, reliable and fast alternative that is better suited to the dynamic, hybrid IT environment where connectivity is a continuous activity. This connector for Omada and mijnCaress can be leveraged using Omada's configurable connectivity framework, which supports standard connectors for SCIM, REST, OData, LDAP, PowerShell, .CSV, .NET, SQL, and SOAP.
