

BlueDolphin is the Enterprise SaaS Tool that helps CIOs and Enterprise Architects plan, manage and collaborate on their business transformation.

Connectivity Package capabilities

This Connectivity Package provides support for managing Users and Groups via SCIM in BlueDolphin.

Supported versions of Bluedolphin

CIM API V2

Notes

- In the connection details you need to replace {tenant-name} with your tenant name.
- The unique id is the external id, so if you are not starting green field you might need to change the task mapping/data model to do a look up based on the email adresss instead of the externalId.

Prerequisites

Since Bluedolphin is a SAAS tool you need to have connectivity to the public internet.

Supported objects and operations

<System objects>	Omada Identity Daya Model	Operations
Users	Accounts	Create, Read, Update, Delete
Groups	Resources	Read
Group memberships (users)	Resource Assignments	Create, Read, Update, Delete
Group memberships (groups)	Resource Parents/Child	Read

Network requirements

Port 443 needs to be open to the public internet

Minimum required permissions

An API key which can be generated in Bluedolphin.

The Omada Configurable Connectivity Framework offers:

- Template-driven connectivity for ease of implementation
- Flexible data model
- Adaptable and extensible data fields and attributes
- Choice of multiple authentication methods

A configurable connectivity approach provides an efficient, reliable and fast alternative that is better suited to the dynamic, hybrid IT environment where connectivity is a continuous activity. This connector for Omada and BlueDolphin can be leveraged using Omada’s configurable connectivity framework, which supports standard connectors for SCIM, REST, OData, LDAP, PowerShell, .CSV, .NET, SQL, and SOAP.

Omada, a global market leader in Identity Governance and Administration (IGA), offers a full-featured, enterprise-grade, cloud native IGA solution that enables organizations to maximize efficiency, reduce risk, and meet compliance. requirements. Founded in 2000, Omada delivers innovative identity management to complex hybrid environments based on our leading technology, proven best practice process framework, and best-in-breed deployment approach.
