

BambooHR

BambooHR is all-in-one HR software made for small and medium businesses. BambooHR makes it easy to collect, maintain, and analyze people data, improve hiring, onboard new employees, manage compensation, and more

Functionality

Connectivity between Omada and BambooHR enables organizations to:

- Onboard Identities
- Change Identities
- Offboard Identities
- Request Access Rights
- Provision and Deprovision Access
- Reconcile Accounts
- Review Access
- Perform Advanced Risk Scoring
- Classify Data
- Initiate Emergency Lockout

The Omada Configurable Connectivity Framework offers:

- Template-driven connectivity for ease of implementation
- Flexible data model
- Adaptable and extensible data fields and attributes
- Choice of multiple authentication methods

A configurable connectivity approach provides an efficient, reliable and fast alternative that is better suited to the dynamic, hybrid IT environment where connectivity is a continuous activity. This connector for Omada and BambooHR can be leveraged using Omada's configurable connectivity framework, which supports standard connectors for SCIM, REST, OData, LDAP, PowerShell, .CSV, .NET, SQL, and SOAP.
