

Amex GBT Egencia (Egencia™) supports the end-to-end travel journey by always working to deliver unrivalled choice, value, and experience.

Functionality

Connectivity between Omada and Egencia enables organizations to:

- Request Access Rights
- Provision and Deprovision Access
- Review Access
- Perform Advanced Risk Scoring
- Classify Data

The Omada Configurable Connectivity Framework offers:

- Template-driven connectivity for ease of implementation
- Flexible data model
- Adaptable and extensible data fields and attributes
- Choice of multiple authentication methods

A configurable connectivity approach provides an efficient, reliable and fast alternative that is better suited to the dynamic, hybrid IT environment where connectivity is a continuous activity. This connector for Omada and Egencia can be leveraged using Omada’s configurable connectivity framework, which supports standard connectors for SCIM, REST, OData, LDAP, PowerShell, .CSV, .NET, SQL, and SOAP.
